

AQUA 40 OUTDOOR WASHING STATION

AQUA 40 is a high-capacity, easy-to-assemble and disassemble outdoor washing station with 40 taps. This advanced unit is designed for efficient water management and user convenience.

- High Capacity: Equipped with dedicated fresh and grey water tanks to handle large volumes of use.
- Water Efficiency: Features sensor-operated taps to minimize water waste.
- Flexible Services: Optional clean water supply and grey water collection services are available.
- Quick Assembly: Designed for rapid setup and disassembly, maximizing the use of space allocated for sanitary facilities.
- Ease of Maintenance: Touch-sensor tap valves enhance cleanliness and water conservation.
- Enhanced Safety: Non-slip flooring ensures the safety of all users.
- The AQUA 40 is ideal for high-traffic areas and events, offering robust functionality and user-friendly features.
