

MNT TENT

MNT is a military technical tent designed for the maintenance and repair of arms and military equipment in field conditions. Engineered for rapid deployment and reliable performance across all climate zones.

- Features a simple, lightweight frame design that allows for quick assembly and disassembly, facilitating easy maintenance and repair in the field.
- Constructed to withstand extreme and variable weather conditions, making it suitable for use in any climate zone.
- Multiple tents can be interconnected in series or parallel to expand the usable space as needed.
- Compliant with Polish Standards (PN) and the NO-06-A104 Defense Standard for military applications.
