

NSR TENT

NSR is a versatile tent designed for year-round use across all climate zones. Its composite frame allows for quick and easy setup, making it ideal for services and units such as police force, fire department, and medical rescue teams.

- The practical design enables a team of four to set up or dismantle the tent within approximately 10-12 minutes.
- Both the frame and membrane are made of high-quality materials that offer superior strength, as well as water and fire resistance.

NSR TENT
